

PDEs Potential Theory Function Spaces

14–18 June 2015 Linköping University, Sweden

In honour of Lars Inge Hedberg (1935–2005)

The aim of the conference is to present the state-of-the-art in these three closely connected fields, which have a long tradition at Linköping University. Our goal is to bring together experts as well as young researchers interested in these topics, and to foster applications and collaboration between these subjects, as well as within them.

Invited Speakers

Yuri Brudnyi

Technion, Haifa

Maria J. Carro

University of Barcelona

Fernando Cobos

Universidad
Complutense de Madrid

Michael Cwikel

Technion, Haifa

Ugo Gianazza

Università di Pavia

Tero Kilpeläinen

Jyväskylä University

Pekka Koskela

Jyväskylä University

Ari Laptev

Imperial College London
and Institut Mittag-Leffler

John Lewis

University of Kentucky, Lexington

Jan Malý

Charles University, Prague

Olli Martio

University of Helsinki

Mieczysław Mastyło

Adam Mickiewicz
University, Poznań

Vladimir Maz'ya

University of Liverpool and
Linköping University

Marius Mitrea

University of Missouri, Columbia

François Murat

Université
Pierre et Marie Curie, Paris

Alexander Nazarov

St Petersburg Department of
Steklov Institute and
St Petersburg State University

Grigori Rozenblioum

Chalmers University of
Technology, Göteborg

Yuri Safarov

King's College London

Nageswari Shanmugalingam

University of Cincinnati

Nina Uraltseva

St Petersburg State University

Dimitri Yafaev

University of Rennes
