

Workshop

Applied Mathematics and Automatic Control

January 17, 2013

Applied Mathematics and Automatic Control

The importance of applied mathematics for optimal control is well known. The goal of this workshop is to create an environment for development of cooperation between Department of Mathematics and Automatic Control, ISY. We believe that many common areas of interest can be identified.

An important part of the workshop will be discussions inspired by the talks. The talks by some participants will also be presented as posters.

Organizing committee:

Torkel Glad, AC
Anders Hansson, AC
Natan Kruglyak, MAI
Luba Kulesh, MAI
Martin Singull, MAI

Workshop takes place in:

Lecture theatre Nobel (BL32)
08:30-16:00, 2013-01-17
